EDUCATION

B.Sc in Electronics and Communication Engineering   *CGPA: 3.50/4.00*
Khulna University of Engineering & Technology.   *Passing year: 2025*

ACHIEVEMENTS

Runner-up, Python Stack - Learnathon 3.0
Team Lead | Team Seagull
- Led a 3-member team and secured 2nd position among 292 registered teams in a 4-month technical hackathon and training program organized by Geeky Solution.
- Oversaw project planning, delegated tasks, and ensured smooth collaboration under tight deadline.

Runner-up - Regional Math Olympiad, 2016
- Achieved 2nd place in a competitive regional mathematics competition, demonstrating strong problem solving and analytical thinking skills.

SKILLS

Tech Stack: React.js, Django, DRF, PostgreSQL, MongoDB, Tailwind CSS, Firebase, Simple JWT
Tools: Git, GitHub, GitHub Actions (CI/CD), Postman

PROJECTS

KUETx: Learning Management System
React.js | Django | DRF | Simple JWT | PostgreSQL | Netlify | Railway | GitHub | Live Site
- **Description:** A full-stack LMS enabling course management, secure user authentication, admin dashboard, community newsfeed and a quiz system.
- **My Contribution:** Designed the whole database architecture. Implemented the course and content management, built the authentication flow with role-based access and developed admin dashboard. Set up CI/CD pipelines with GitHub actions, deployed on Netlify (Frontend) and Railway (Backend)

Techshop: E-commerce Web Application
ASP.NET | HTML | CSS | JS | SQL Server
- **Description:** Developed a fully functional tech shop platform where users can browse products, login to their account, add items to a cart and complete purchases securely
